

The Essentials of Home Visiting

HIGH-QUALITY LEARNING TO ADVANCE FAMILY PROFESSIONALS

Hello, Program Leaders.

As you know, we partnered with [Start Early](#) (formerly the Ounce) in August to provide online professional development to many of our home visitors in the midst of COVID. Courses included: *Foundations of Infant Mental Health in Home Visiting*, *The Impact of Trauma in Home Visiting* and *Building Engaging and Collaborative Relationships with Families*.

Data from the pilot showed that most supervisors felt the Essentials of Home Visiting courses (formerly Achieve OnDemand):

- Pertain and were relevant to the program / site's home visiting model.
- Encouraged reflection on personal topics relevant to home visiting.
- Encouraged reflection on professional topics relevant to home visiting.
- Offered practical ideas for use in practice with parents and families.

We all know that home visitors and family support professionals are an essential part of family wellbeing and strong program outcomes, especially in these uncertain times. I'm happy we could provide select courses through LA BBN. Now I want to elevate the [full catalog](#) of online courses offered by Start Early Essentials of Home Visiting.

I know that many of you have supplemental funds to purchase professional development for your home visitors and supervisors. Below is more information about the value of the Essentials of Home Visiting and how it may support your program goals.

[The Essentials of Home Visiting](#) is a high-quality, online training platform designed to create confident, competent home visitors and supervisors within any home visiting model. It closes the gap in home visitor education with relevant topics and a flexible, accredited training experience. Learners earn CEUs that support the acquisition and maintenance of professional credentials across multiple fields and state and professional registries. Learning experiences are competency-based and rooted in decades of home visiting expertise from Start Early.

The comprehensive catalog of cost-effective, self-paced courses and live webinars is available [HERE](#). Please see attached the upcoming [live webinars](#). The next live webinar is on October 27th: *Matching Family Needs to Resources*.

Courses cost the following:

- Self-Paced Course - \$95 / person
- Live Webinar - \$25 / person
- 1 Year Subscription to Full Catalog - \$250 / person
